DENTIST!

Next to Bank of Maysville.

Gum given in the painless extraction of teeth.

OPIUM and Whiskey Habits cured at home without pain. Book of particulars sent FREE. B. M. WOOLLEY, M.D., Atlanta, Ga. Office 104 1/2 Whitehall St.

CALLING THEM DOWN

Plans Prepared for Restricting Immigration.

APPROVED BY THE PRESIDENT.

A Circular Issued by Assistant Secretary Nettleton—Prospects of a Stoppage Put to Foreigners Flooding into the United States—Other Washington News.

WASHINGTON, June 4.—The plan prepared by Assistant Secretary Nettleton, for restricting pauper immigration into the United States, has been submitted to the president and approved, and was yesterday embodied in a circular letter and sent to all steamship companies bringing immigrants to this country.

The circular, after reciting the laws designed to regulate immigration, says: The evident disposition of many steamship lines, under the pressure of sharp competition, to gather up in Europe and bring to the United States all who, with or without the aid of others, can pay the now trifling cost of steerage passage, regardless of their character or condition, and regardless of our laws, compels on the part of this government a closer scrutiny and the adoption of more comprehensive measures than have hitherto seemed necessary.

While it is the purpose of the government to enforce those statutes in their letter and spirit at every port of the United States and along the international boundary, it is desired that as little discomfort and distress as possible result to persons affected by the immigration laws. With this view it is important that persons of the prohibited classes be prevented from leaving their homes and crossing the sea, only to be sent back again on their arrival here. It is wrong that either the greed of some steamship companies, the mistaken kindness of friends, or the wish of many foreign companies.

ELECTRICAL STORM.

Great Damage Done in Northern Ohio by Wind and Hail.

CLEVELAND, June 4.—A violent wind and rain storm raged in this city yesterday, and was accompanied by extraordinary electrical disturbances. Lightning struck the Hotel Wilmot and jumped from thence to the trolley wire of an electrical street railroad, severely shocking the occupants of a passing car, and throwing several of them in a heap toward one end. The machinery of the motor was badly damaged. The great volume of water that fell covered the street car tracks in many localities with washouts, and traffic was temporarily impeded.

At Clyde, O., hail stones fell that measured nine inches in circumference. A passenger coach on the Wheeling and Lake Erie railroad had the windows on one side broken. A hole was made in the engine cab, the headlight was broken and the boiler jacket battered as though with hammers.

The President's Course Commended.

WASHINGTON, June 4.—The publication of the recent correspondence between the United States and Great Britain, together with the announcement made in parliament Monday that the British government is inclined to agree to the proposition of the United States is very favorably commented upon in political circles here. The president's course in compelling prompt action in the face of the attempted delay by the British officials is especially commended.

Gone to the Wall.

NEW YORK, June 4.—Russell & Company, of Chicago, with offices at 60 Wall street and No. 107 Grand street, this city, and London, suspended yesterday. The firm did a general import and export business, the establishment being in Hong Kong. They dealt largely in oil and cotton, which they shipped to China, sending back silks and teas. The present result has been expected for some time in the trade.

Resentenced to Death.

NEW YORK, June 4.—Harris A. Smaller, James J. Slocum and Joseph Wood, all under conviction to suffer death for murder, but who had appealed to the Federal courts, were resentenced by Judge Barrett in the supreme court, general term, Tuesday, to be executed at Sing Sing prison during the week beginning July 6 next. Their lawyers made many objections to their clients being resentenced.

Mad Lizzie Eagle.

SPRINGFIELD, O., June 4.—A sensation was created yesterday by the filing of affidavits against Rev. L. H. Lorenz, a leading citizen, by Lizzie Eagle and her uncle, Martin Huber, charging him with threatening to kill the girl, whom his son has been courting against his father's wishes, and charging him with making a vicious assault on Huber.

Freight Collision.

CANTON, O., June 4.—A serious wreck occurred yesterday near Orrville, on the Pittsburg, Fort Wayne and Chicago railroad. A freight train and passenger No. 27 collided. Engineer Parker, of the passenger train was severely injured and the fireman was slightly hurt. The loss to the railroad will be heavy.

Buried in a Sewer.

MINNEAPOLIS, June 4.—By the caving in of a sewer on Twenty-sixth street, six men were covered. Fortunately, the boards fell in such a way as to make a shelf, and the men were rescued unhurt after two hours' digging.

An Ugly Charge.

SHAWNEE, O., June 4.—Will Dalton is under arrest for attempting to wreck a C. & S. and H. railway excursion train. The warrants were sworn out by George Wharf, railroad agent here, and served by Marshal Murdock.

ALL A MYSTERY.

Cause of a Serious Fire in the Suburbs of Chicago.

CHICAGO, June 4.—Shortly before 8 o'clock yesterday morning fire broke out in the drying house of Shufeldt's distillery, at the corner of Chicago and Hawthorne avenues. Two minutes after the first alarm the entire immense building was enveloped in flames, and for a time it seemed that the other distillery buildings were in danger of going. A 4-11 alarm was turned in and in two hours the fire was under control, not, however, until the drying house was an entire wreck. That the whole distillery plant was not destroyed was a marvel, because only a fire wall separated the blazing building from another structure where 200,000 barrels of liquor were stored.

The loss on the drying room, machinery and contents will be in the neighborhood of \$50,000. Three men were in the drying room when the flames broke, and were so badly injured that they may die. Herman Longner, 24 years of age, badly burned from the hips up; lives at 359 West Chicago avenue. William Searing, engineer, 48 years, inhaled flames and badly burned about neck, head and shoulders; lives at 219 South Western avenue. Gottfried Brentwent, 55 years, inhaled flames and seriously burned, lives at 18 Larrabee street. The origin of the fire is a mystery. The proprietors say they do not believe that it was incendiary.

LABORERS STARVING.

Pitiable Condition of a Large Number of People in St. Louis.

ST. LOUIS, June 4.—It is claimed that 150 families are starving in North St. Louis. Business in that section of the city is at a standstill, and the laborers are clamoring for bread. The situation is very serious, and something will have to be done to relieve the wants of these men and their families. The laborers are regularly employed on street-cleaning, hauling and grading work for the city, and that is their sole means of livelihood. Owing to the squabble in the city council over the mayor's appointments, the appropriation bill has not been reported, and hence the street department has quit work, throwing the men and their teams out of employment.

Grocers in the North End have refused further credit to the laborers, and the condition of the poor people is extremely pitiable, several families being in a starving condition. Three grocers who had extended credit to the laborers have been forced to assign, and other grocers have grown cautious. The desperate laborers are arranging for a demonstration Friday night, when the council meets. The entire number will drive up to the city hall with their teams, as a sort of mute appeal to the city fathers to save them from beggary.

SCHWEINFURTH WARNED

To Get Out of Kansas City or Take the Consequences.

KANSAS CITY, June 4.—A number of the business men and citizens of Kansas City met Monday night and sent a message to Schweinfurth, the pretended Christ, who has been here for several days, to leave the city or take the consequences. He has appealed to the police for protection.

After a Murderer.

GREENCASTLE, Ind., June 4.—Sheriff Vestal has returned from the pursuit of Noah Evans, the slayer of Richard Adams at Roachdale. He trailed Evans to Wheaton, a station on the I. D. and W. railway, where it is supposed he turned north into Montgomery county. A cousin of Evans is an attorney at Lebanon, where the fugitive may have gone, to consult him with reference to his case. After killing Adams, Evans addressed the crowd of terrorized bystanders, warning them not to attempt his arrest, and he intimated his intention to consult an attorney before surrendering himself. The sheriff of Boone county has been advised to look out for him. Evans is a brother of Harper Evans, who killed Tighman Hanna and wife at Groveland, in this county, in 1860. He was convicted and given a life sentence, but he escaped from prison and was never heard of again.

Yesterday afternoon Mrs. Evans arrived here from Lebanon, coming in advance of her husband, whom she reports went there to consult an attorney. She says that he has already surrendered himself to the authorities.

Religious Gathering.

INDIANAPOLIS, June 4.—The fifty-fourth annual convention of the Episcopal clergy of the diocese of Indiana, is being held here with an attendance of a hundred or more clergymen and laymen. The treasurer of the diocese reports receipts during the year of \$73,488, and a balance now in the treasury of \$2,014. The principal new business of the convention will be the revision of the constitution of the diocese, a committee having been appointed some time ago and a report being submitted to-day. One of the proposed changes provides that the diocese shall not vote for the confirmation of any bishop who is not a native or naturalized citizen of the United States. This amendment was adopted almost unanimously, and eventually the whole instrument was also adopted.

Condition of Canada's Premier.

OTTAWA, Ont., June 4.—Sir John Macdonald's condition is lower than twenty-four hours ago. The alterations in his strength are at shorter intervals than before. He takes nourishment less willingly than heretofore. Respiration, 30; pulse, 138; very irregular and compressible.

Visiting Shawnee Mines.

SHAWNEE, June 4.—A special train bearing the Ohio institute of mining and engineering, together with Lieutenant Governor Marquis and a number of members of our state legislature, visited the Upson and XX mines here. They left this place for Corning.

MIDLAND MUDDLE.

Strikers' Prospects at Waveland, Indiana.

EMPLOYEES ARE SUCCESSFUL.

A Compromise Reached in the Long Contested Fight Between Union and Non-Union Labor—The Situation as it is at the Present Time.

ANDERSON, Ind., June 4.—One o'clock yesterday was the time fixed by Deputy Sheriff Campbell to sell a Midland engine, levied upon to secure wages due the railway employees, but just before the hour of sale Harry Crawford, Sr. and Jr., paid Campbell 50 per cent. on all executions held by him, and they also went to the different justices' offices and made similar settlement. These payments were accepted with the understanding that the remaining half is to be paid within thirty days. If it is not, Mr. Campbell will again proceed to tie up the Midland railway stock.

It is understood that the Midland pay-car should have reached Waveland yesterday but it failed. Yesterday A. P. Hanna, the Waveland leader, went to Crawfordsville on matters connected with the strike, and when he started upon the return he was met by a deputy sheriff, who thrust a copy of a restraining order into his pocket. Hanna knocked it out and ran through the car with the deputy at his heels shouting the nature of the restraining order. Claim is made that Hanna is properly served and that he must report to the court or be attached for contempt. News comes from Waveland that the strikers have fallen out among themselves, and that Hanna refuses to accept fifty cents on the dollar on claims held by him. The Crawfords offer to settle on this basis.

Starving Seal Hunters.

OTTAWA, Ont., June 4.—Robert Piercy, a young seal hunter of the schooner Mary Bell, arrived at Victoria from Juneau by the latest Alaska boat, with a story of adventure and hardships such as few old sailors can tell. He and two boatmen strayed from the schooner off Cape Fairweather in the latter part of April, and after some days made land about 250 miles from Juneau. Thence they pulled along to that town, all the time in a dead calm.

Their stock of provisions, only sufficient at first to last twenty-four hours, soon gave out, and they were forced to feed on raw seal and ducks, which tasted of fish and salt water. They reached Juneau thoroughly exhausted and broken down, after fifteen days' starvation and exposure. The two others, Oliver Hague and Elie Sinclair, are still at Juneau. Piercy sold his gun and three sealskins in order to raise money to reach Victoria.

Will Serve Four Years.

LAFAYETTE, Ind., June 4.—Nearly three months ago Peter Saltzman, of Perry township, this county, discovered that his farm was in the name of John W. Spurgeon, and that there was a mortgage of \$1,000 upon it. Saltzman instituted an investigation which led to the indictment of John W. Cripe and his brother Noah upon a charge of forgery, perjury and obtaining money under false pretenses. The trial of John W. Cripe on the false pretense indictment began Monday, and Tuesday afternoon the jury returned a verdict of guilty, with four years' imprisonment. Noah Cripe is in jail, he having been followed to Joplin, Mo., and placed under arrest.

Not Yet Settled.

PITTSBURG, June 4.—The wage committee of the Amalgamated Association completed its work yesterday and presented the scale to the convention for discussion and approval. While it is understood that the wage committee report favoring the present scale, or \$5.50 per ton for boiling iron, there is a very strong influence at work among the delegates favorable to an advance to \$6, on a two-cent card. The list of standing committees was announced in the afternoon.

Fire in a Rag Room.

APPLETON, Wis., June 4.—A fire in the rag room of the Batton paper mill at 3 o'clock, destroyed \$10,000 worth of property, and two mill men were smothered to death. Cornelius Johnson and Henry Ryan were using the mill hose when the fire got the best of them. They tried to escape down stairs, but missed their way in the smoke and got into a small dressing room, where they were shortly afterwards found.

Colonel Maxwell Resigns.

CINCINNATI, June 4.—At the regular meeting of the board of directors of the chamber of commerce and Merchants Exchange, Col. Sidney D. Maxwell, the superintendent, presented his resignation to take effect Sept. 1. Col. Maxwell entered upon his duties about twenty years ago and was re-elected each succeeding year. He retires for reasons entirely personal. His resignation was referred to a special committee.

Increase of Assessment.

COLUMBUS, Ind., June 4.—The assessment, as just completed under the new law, shows an increased valuation in this city of almost \$1,000,000, and in the township (including the city) of nearly \$1,500,000. The number of polls is increased to 814, and the increase in dogs is 363.

A Mysterious Case.

INDIANAPOLIS, June 4.—Mr. and Mrs. Charles Richards, of this city, are lying at the point of death from a strange disorder. They were both taken sick yesterday, and it is believed that their illness was due to something they had eaten, but what it is the physicians do not pretend to know.

HOUSE LETTER BOXES.

A Thousand Models and Designs Awaiting the Action of the Committee.

WASHINGTON, June 4.—One thousand house letter boxes of every conceivable size, shape and substance are piled up in Room 50, Floor B, of the postoffice department, awaiting examination by the postmaster general's commission, who are ready to hold their second session. In the last few days they have been coming in whole wagonloads, and the secretary has fallen far behind in the work of recording the successive entries. Almost every inventor has submitted two or more models. The collection of inventive skill is not monopolized by the masculine mind. There are many ingenious devices from bright women whose ideas ought to be of value in the development of an invention that will contribute so much to the comfort of indoor people.

It is well known that an enormous amount of time is lost in the aggregate by letter-carriers while waiting for some one to come to the door or the window to receive mail matter. It is estimated that one-fourth of the carriers' time is lost in this way. Any device that will save this loss to the service simply adds one-third to the general efficiency of the work. For instance, if there are 100 carriers in Washington whose working power is thus diminished to that of seventy-five working without such loss of time, any plan by which these seventy-five men can, with the same activity, do the work of 100 under the present system adds one-third more actual work performed in the course of the day, which means to the entire country an almost incalculable benefit to all who enjoy the rapidly increasing facilities of the free delivery system.

The postmaster general last June appointed a commission to recommend a suitable device for letter boxes to be attached to the doors of dwellings. This commission, at the time of its first session, in the early part of October, 1890, consisted of the following members: John M. Corse, postmaster, Boston, Mass.; C. Van Cott, postmaster, New York city; J. B. Harlow, postmaster, St. Louis, Mo.; Henry Sherwood, postmaster, Washington, D. C.; James E. Bell, superintendent delivery, Washington, D. C., and W. B. Smith, acting inspector in charge, Washington, D. C.

A circular had been sent out to inventors and manufacturers, setting forth the objects desired, soliciting models, designs, suggestions, etc., and fixing a time and place for their examination. In response to this public notice about 800 models, designs and suggestions were submitted, all of which were carefully examined. Ten days were spent in this work. No one device seemed fully to satisfy the requirements.

The second circular to inventors, dated Jan. 10, 1891, called for two classes of models; one for a delivery box, and the other for a box having two compartments—one for delivery and the other for collecting.

This second idea was the outgrowth of suggestions received during the first session. Thus the original problem became still further complicated. The devices submitted must be inexpensive, neat, weather-proof, partially transparent, simple in operation and secure from thieves. It should mar the door as little as possible, and have a receptacle for papers.

During the year several changes have occurred in the personnel of the commission, which is now composed of the following members: Postmasters Van Cott of New York, Harlow of St. Louis, Hart of Boston, and Sherwood of Washington; Superintendent Bell and Acting Inspector Smith, of Washington.

The important saving of time is not the only element of value in this proposed reform. By a system of house collections correspondence would be greatly increased, especially in the large cities. Messengers who cannot be trusted to deliver a letter to the nearest street box can be assigned to less responsible duties, and the large number of correspondents that are more or less confined to their houses, particularly in inclement seasons, can enjoy the privilege of depositing their mail matter without exposure to the weather. Increased correspondence means greater revenues, that may be applied to other needed improvements in the service. With success in this effort, then comes the promise of so much additional comfort and satisfaction to the home. The letter box commission will probably be able to arrive at a favorable decision some time this month.

Blew His Brains Out.

BUTLER, Pa., June 4.—O. H. Hennon, station agent of the Pittsburg and Western railroad at Reibold, committed suicide yesterday afternoon by blowing his brains out with a pistol. The auditor of the company had come to Reibold from Pittsburg yesterday afternoon, accompanied by Hennon's successor. While they were auditing his accounts, and in the presence of his wife, Hennon placed his revolver against his head, pulled the trigger and blew his brains out. It is rumored he was short in his accounts.

Will Wait Awhile.

INDIANAPOLIS, June 4.—The resignations of the Momenock rock commissioners took effect on Monday and the proposed improvement will now be at a standstill till the next legislature meets, the governor having decided not to appoint anyone to the vacancies, as efficient men cannot be induced to take the position under the law requiring them to give bond that the cost shall not exceed the appropriation.

DES MOINES, June 4.—The first state convention of the People's party since its organization at Cincinnati, met at the Grand opera house at 10 o'clock yesterday morning. About 500 delegates were present. Ex-Representative J. T. Anderson, of Winnebago county, was chosen temporary chairman. He is the leading Scandinavian politician of northern Iowa, and heretofore has been a Republican.

Good Things in the New Constitution.

It reduces the grand jury four numbers and saves \$17,000 per annum.

It does away with 957 Justices of the Peace and saves \$60,000 per annum.

It abolishes the office of Public Printer and saves \$10,000 per annum.

It restricts the Legislature to sixty days. Saves \$50,000 per annum.

It taxes banks and other corporations for county and city purposes, and increases the revenue \$150,000 per annum.

It makes a bank stock worth \$180 per tax on \$180, not on \$100.

It is non-partisan.

It abolishes "vest pocket" charters.

It provides for a uniform code of laws.

It provides for a secret ballot system of voting.

It makes all charters revocable.

It limits the amount of taxes the counties and cities shall pay.

It provides for a uniform system of courts.

It puts an end to the controversy over Virginia patents.

It prevents counties and cities from being taxed to build railroads.

It added \$600,000 to the common school fund.

It left out the slavery clause.

It is for the people as against organized capital.—Farmers' and Laborers' Journal.

OUR NEIGHBORS.

TOLLEBORO.

School election on the 6th inst.

W. S. Prather was at Maysville Tuesday.

Sheriff Willina was on our streets Tuesday.

Mrs. I. M. Kay is visiting friends in Vanceburg this week.

Dr. and Mrs. W. T. Burdick were at Maysville on Thursday last.

Professor Kay has moved his residence to the Gillespie house.

Mrs. Henry Clark returned Monday from a visit to friends near Vanceburg.

Miss Callie George, of Vanceburg, was the guest of Mr. and Mrs. J. M. Gray Sunday last.

U. S. Storekeeper J. D. Rummans is spending a short vacation with friends in this vicinity.

W. S. Prather has placed some new tobacco pressing machinery in his warehouse at this place.

Dr. Wm. Bowman, U. S. Consul at Tien Tsin, is expected home some time between now and the 10th inst.

The strawberry and ice cream festival for the benefit of the S. of T. Saturday night last was well attended.

The basket meeting at Tabor Church on Sunday last was well attended and a pleasant time was enjoyed by all.

R. M. and Joel Fowler, of Vanceburg, were in attendance on the I. O. O. F. lodge here on Saturday night last.

Mr. and Mrs. David Dunbar, of Manchester, O., were visiting Mr. Ann Bryant—Dr. D's sister—near here, the first of this week.

William Nash was summoned to the bedside of his father, James Nash, on Thursday.

Mr. Nash is ill with typhoid fever at Brooksville.

J. W. Boyd, one of our worthy citizens, was placed in nomination for County Representative at the Alliance convention at Vanceburg on Monday, June 1st.

G. W. Cochran, T. J. Conway and Granville Cooper were delegates from the Farmers' Alliance of this place to the county convention at Vanceburg on Monday.

Decorations Day was observed at Canaan Church on the 30th. The following programme was arranged and carried out:

Opening exercises by T. H. Hamrick Post G. A. R. No. 22.

Prayer by Post Chaplain J. T. Dodd.

Address of welcome by Post Commander Wm. Applegate.

Reading of obituary notices.

Address by Rev. J. S. Ruggles, of Aberdeen, O. Mr. Ruggles' address was instructive and entertaining.

Singing—"Nearer My God to Thee." Music was under direction of T. H. Ruggles, of this place.

Dialogue—"Thirteen Colonies," by thirteen young ladies.

Dinner hour having arrived, well-laden baskets were produced, and if any person went away hungry it was his or her fault. Your correspondent took dinner with Mr. Samuel Parsons and family, and was most pleasantly entertained.

The Post was called to order at 2 p. m. by Post Commander, when the audience were entertained by Mr. F. B. Trussell, of this place. After Mr. Trussell's address remarks were made by Dr. W. T. Burdick, Rev. Mr. Austin and G. W. Adair, Esq., the latter of Maysville. Next in order was a dialogue by a number of the veterans, sons of veterans and daughters of veterans.

The graves were then decorated, each separate resting place of the gallant dead receiving a bountiful supply of floral offerings. Too much praise cannot be bestowed on the members of Hamrick Post No. 22 for the hospitality extended to the visitors. The members of the Post, assisted by their wives, daughters and sons, exerted themselves to their utmost to place their guests at ease, and succeeded.

SARDIS.

Misses Bland, the winsome brunettes of "The Highlands," have their cards out for a summer outing. They are billed for the sunny South to bask awhile in the sunny joys of the sunny and flowery month of June. They will leave for Memphis Saturday on the steamer Ohio, Captain Don Mar commencing their trip. They will be entertained on the boat while she lies in port, and by some special friends while guests in the pretty Tennessee metropolis. Two very stylish Calletsburg ladies will join the party at Cincinnati—Misses Taylor and Marr. On the return of the excursionists, we more than half suspect some gallant gentlemen friends will increase the number of the pleasure seekers. A royal reception will be given the party and others at "The Highlands," of which event the BULLETIN will be seasonably vivacious.

"Desha Glenn," the former ancestral home, Mrs. Hoober Perdon Arthur hostess, has entertained some genial and delightful guests the past week, among them Mr. and Mrs. James Claybrook and daughter, Mary Baxter, Miss Hatlie Owens and Miss Alice Tobbs Forman, of Washington, and Mr. and Mrs. Ed. Berry and daughters, of Maysville.

KENTUCKY CROPS.

The Outlook as Summed up by the State Commissioners of Agriculture.

The State Commissioner of Agriculture C. Y. Wilson in his report for the month of May says:

"Corn was planted generally ten to fifteen days late, caused by wet weather in the ordinary planting season. From about the 1st of May to the 20th, dry weather prevailed, which made it impossible to break the soil. Seeding was, of course, retarded, and the early planting did not grow well at the start. The stalk is low but green, and the stand has been reasonably good. There is not much complaint of cut-worms or root lice, except in old clover lands. Replanting has not been more general than usual. Seed corn was very scarce and hard to obtain, and many farmers were forced to use indifferent seed. The high price of corn has stimulated a disposition to plant as largely as possible—the price varying at the crib from 75c. to \$1 per bushel as to locality. The crop so far has been well cultivated, and, with seasonable weather, would soon show splendid condition. The acreage as given is five per cent. above last year.

"In my report of June 1, 1890, I gave the condition of wheat at 93 compared with 1889. The past winter was generally warm and open, with few freezes and thaws. Consequently it was well rooted, and in the spring was stalky and vigorous, promising the best yield of our State's history; during the month of May, from the 1st to 20th, the dry weather and unfavorable winds checked its growth, and it seemed to stand still. About the 20th rains came in some sections and have materially promoted the prospects of a good yield. Some localities had no rain, or, at best, very light showers. There is much complaint of short spindling heads, which indicate small grains. In the past few days a good deal of complaint is being made of the grain louse, a small green insect, which live in great numbers on the heads of wheat, generally between the meshes. They do their damage by boring into the grain in the milky stage and sucking the substance, thereby causing the grain to shrivel. They are worst in dry weather; with good rains they generally are harmless. There is no remedy when they once make their appearance in force, and, of dry seasons, they are very prolific, and come suddenly and in great numbers. Generally, however, wheat is looking well, and, in many places, exceptionally so. In any event, from the reasons given, we can not have the yield of wheat promised four to six weeks ago. Acreage compared with 1890, 111.

"Tobacco—Plants are generally plentiful and in good condition. Now and then complaint is made of the lateness, and such other ills as are usually in a crop of this kind. All the farmers need at present to have a full setting is a good continuous season for two or three days. Since the recent showers the ground expected to be used for tobacco has been prepared, and plants are rapidly growing to the proper size for setting. Supplemental to my regular reports, I have telegraphed and written to all of the subdivisions of the State dating up to the 28th of May. Including three to four replies from each subdivision, averaging these replies, the following is the setting to the 28th: Logan and Todd, average per cent. of contemplated acreage, 20 per cent.; Bowling Green, five per cent.; Owensboro, 20 per cent.; Mt. Sterling, 5 per cent.; Paducah, 35 per cent.; Lexington, 20 per cent.; Maysville, 15 per cent.; Frankfort, 35 per cent. From the 20th to the 25th, they had fairly good rains in Breckinridge, Grayson, Butler, and Todd, and the remainder of the counties west of the line formed by these counties. They, also, had good rains in Henry, Shelby, Franklin, Scott, Woodford, Anderson and Spencer counties. The counties between the Louisville & Nashville Railroad and Cincinnati Southern, except the counties named, had a very indifferent setting season. All of the section east of Fayette County had a very poor season. The largest setting in the burley section was in the counties of Henry, Shelby, Scott, Woodford and Franklin—one man in Franklin completing his setting of forty-five acres. The counties in dark section having the largest setting are those generally contiguous to Clarksburg. Where seasons have been good, there is no complaint of the stand.

"Rye—Acreage 100; condition, 96.

"Fruit—Last year fruit was almost a total failure. This year we are promised a fair to good yield. The May frost did much damage, especially to grapes, in many localities, but we will have enough left.

"Oats—The crop, as usual, will be very small—small acreage—caused by scarcity and high price of seed, combined with late sowing and dry weather in May. This crop may be regarded a failure."

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Here and There.

Mrs. L. V. Davis is in Cincinnati to-day.

Mr. John Archdeacon, of the Frankfort Capital office, is in town visiting relatives.

Mrs. N. S. Wood, of St. Louis, arrived last evening on a visit to Mr. D. Wood and family.

M. J. Donovan, of Maysville, was the guest of the Democrat several days this week.—Winchester Democrat.

Rev. John Barbour and family, of Mankato, Minn., arrived last evening on a visit to his parents, Hon. and Mrs. James Barbour.

Colonel J. Curtis Smith, of Louisville, is here to-day on business connected with the "Blue Lick Sanitarium and Hotel Company," of Nicholas County.

Miss Mae Marshall, of Lewisburg, and her guest, Miss Francis Shuford, of Holy Springs, Miss., are visiting Miss Iva Dee Allen, of Millersburg, this week.

Bogus Coffee.

The News-Democrat of Georgetown says: "We have often heard of artificial coffee berries but never saw anything of the kind until Saturday last. A test of one pound showed that one-fourth of it was of the manufactured article. The counterfeit is complete and by sight its detection is well nigh impossible. It has the color and shape, but when a knife is employed it is discovered to be a composition largely composed of clay, or some other gritty substance. In buying coffee look out for this cheat. The merchant who was imposed upon, bundled his purchase up and shipped it back to the persons who put it on him."

River News.

The river has been rising steadily for a few days, and the bars have about disappeared.

The Keystone State passed down this morning, and will leave Cincinnati this evening on her regular time for Pittsburgh.

The Chancellor for Portsmouth and Congo for Pomeroy are due up to-night and Telegraph will pass down.

Captain Con Phister will let the contract soon for a new ferryboat to take the place of the Gretna Green. The boat is to be something on the order of the Ripley ferry, but larger, and will have better accommodations for passengers.

Sold Low.

The old three-story brick school building at Aberdeen was sold yesterday at public auction to the Masonic lodge of that place for the small sum of \$600. The lot on which it stands is a large one, and the Masons got a bargain. They will remodel the building at once and convert it into a handsome and spacious hall for Masonic purposes. The lodge has been renting a hall for fifty years.

The small school building near by was sold to John Herbert for \$71.

The city is erecting a handsome school building at a cost of \$8,000.

Kentucky Tobacco Statistics.

The Census Office yesterday gave out the tobacco statistics of Kentucky compiled by Professor Thomas N. Conrad, under the direction of Mr. John Hyde, special agent in charge of the Division of Agriculture. The total number of planters in the State during the census year was 61,641; the total area devoted to tobacco, 274,587 acres; the total product, 221,880,303 pounds, and the value of the crop to the producer, estimated on basis of actual sales, \$13,355,297.

To Dispel Colds,

Headaches and fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual consumption, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

Closing Out Sale.

We are forced to vacate our premises within the next thirty days, and now offer our whole and entire stock of queensware, chinaware, notions, toys and fancy goods, regardless of cost.

OBERSTEIN & Co.,

166t Sutton street, Maysville, Ky.

THE Supreme Court of Connecticut rendered a decision yesterday sustaining Morris, the Democratic candidate for Governor in his claims for the office. He was elected last fall, but the Republican Governor has kept him out of the office ever since.

BABY IS SICK—The woeful expression of a Des Moines teamster's countenance showed his deep anxiety was not entirely without cause, when he enquired of a druggist of the same city, what was best to give a baby for a cold? It was not necessary for him to say more, his countenance showed that the pet of the family if not the idol of his life, was in distress. "We give our baby Chamberlain's Cough Remedy," was the druggist's answer. "I don't like to give the baby such strong medicine," said the teamster. "You know John Oleson, of the Watters-Talbot Printing Co., don't you?" inquired the druggist. "His baby, when eighteen months old, got hold of a bottle of Chamberlain's Cough Remedy and drank the whole of it. Of course it made the baby vomit very freely, but did not injure it in the least, and what is more, it cured the baby's cold. The teamster readily knew the value of the Remedy, having used it himself, and was now satisfied that there was no danger in giving it even to a baby. For sale by Power & Reynolds.

SHEEP—Common to fair, \$3.25@4.00; good to choice, \$4.25@4.75. Extra, \$5.00. Market weak.
LAMBS—Common to fair, \$5.35@5.75; heavy shippers, \$6.50@6.75. Market slow and lower.

Cincinnati Tobacco Market.

(Tuesday.)

The breaks were, as has been the case for several weeks, small on the opening day and of a generally poor quality. The market exhibited no marked change from last week. Common trash, lugs and nondescripts showed a fair demand at prices current the previous week. Medium leaf and color trash and lugs held active and were sold well. A light supply of good and fine leaf was shown, for which there was a continued active demand at full prices.

Of the 301 bbls, 51 sold from \$1 to \$3.95, 55 from \$4 to \$5.90, 61 from \$6 to \$6.90, 37 from \$8 to \$9.95, 56 from \$10 to \$14.50, 28 from \$15 to \$19, and 13 from \$20 to \$23.50.

Young Mothers! Here We Are

We Offer You a Remedy which Insures Safety to Life of Mother and Child.

"MOTHER'S FRIEND"

Robs Confinement of its Pain, Horror and Risk.

After using one bottle of "Mother's Friend" I suffered but little pain, and did not experience weakness afterward usual in such cases.—Mrs. ANNIE GAGE, Lamar, Mo., Jan. 15th, 1891.

Sent by express, charges prepaid, on receipt of price, \$1.00 per bottle. Book to Mothers mailed free.

We are authorized to announce DR. JOHN M. FRAZER as a candidate for Representative, subject to the action of the Democratic party.

DR. DEWITT C. FRANKLIN.

Dentist.

Office: Sutton Street, next door to Postoffice.

READ THIS TWICE!

The only Protection that will effectually protect all people, all classes, all labor and all interests is that styled SELF PROTECTION! acquired only from a truthful knowledge of ways and means, legal and illegal, just and unjust, by which the burdens of government, profits of labor and industry, are so unequally divided.

That knowledge is power, and ignorance its slave, is forcibly illustrated daily in all walks of life, among all people, in all countries.

Where knowledge is used as a power or a means for gaining wealth without labor or an equivalent therefor, it becomes necessary to deceive or keep in ignorance of such methods those from whom the wealth is taken; hence it is that of the ten thousand newspapers printed in the United States, less than ten are absolutely free and independent of the power or control of some class, party or monopoly whose interest it is to keep the great mass of people in ignorance of their methods.

The Cincinnati Weekly Enquirer is one of the few, if not the only one, absolutely free from such influences. It is the most honest, thorough, able teacher and exponent of truthful knowledge, of reliable data, free from partisan bias, fair, frank and explicit to such degree that one cannot but feel edified and capable of forming correct conclusions therefrom. Such a paper should be in every household. Sample copies can be obtained by addressing the publishers, at Cincinnati, O.

THE friends of Mrs. Andrew Mitchell, of East Third street, will regret to learn that there is not much, if any, improvement in her condition. She has been quite ill several days.

ONE thing must not be lost sight of. When you buy jewelry from Ballenger, you can rest assured of getting just what you bargain for. His stock is the best and is always complete.

DR. L. LANDMAN, the scientific optician of Cincinnati, who has been practicing in his line in this city for the last three months with great success, is visiting his patrons about Mayslick.

IT has set up a kingdom of its own and driven out rheumatism, neuralgia, blood poison, ulcers, boils and pimples. Ask Power & Reynolds for a bottle of Pioneer Sarsaparilla. Price, 50 cents.

THE commencement exercises of the College of the Bible at Lexington will be held June 9th. A class of eighteen will be given diplomas, Elder E. L. Metz, of Dover, and Elder W. B. Taylor, of Brooksville, being among the graduates.

MR. GEORGE CRAWFORD has opened his new blacksmith shop at corner of Second and Lee streets and invites his friends and former patrons to call when needing work in his line. He has had years of experience at the business and guarantees satisfaction. Blacksmithing of all kinds done.

THE WIND'S WORK.

Buildings Partly Unroofed in This City and at Aberdeen, O.

The Damage Heaviest in the Vicinity of Dover and Minerva.

The heavy wind storm that swept over this section Tuesday at noon was followed by another and more destructive one yesterday shortly after 3 o'clock.

The storm yesterday came from the West and Northwest, and the dark threatening clouds as they swept up the valley betokened a fierce gale, and caused considerable alarm. Windows were lowered, doors closed and every preparation made for the blow.

But the storm was not as severe as many had feared it would be, and no serious damage was done in this city.

Part of the roof of the cotton mill was torn off. At the St. Charles Hotel a chimney was blown down and a panel of the upper porch at the rear was torn out. A chimney at Dr. Cartmell's residence on Front was tumbled into the street. The wind had a fair sweep at Mr. George T. Wood's residence, and the east half of the roof was torn off. Part of it was left hanging in some fruit trees, and a considerable piece of the tin was carried across the street and fell in Mr. Marion Walker's yard.

Two empty freight cars were standing on the K. C. siding, just east of the creek. These were caught by the wind and blown along the track about fifty feet. Another empty car was standing on the siding near the cooper shop. The north door was open, and if any one had taken shelter in this car, he would have thought a sure-enough cyclone had struck it. There was no outlet, but the wind soon made one by lifting the roof from its fastenings. An out-building at the depot was overturned. It has been a nuisance for some time, and the agent of the railroad would confer a great favor on the people who travel the K. C. route to the East End if he will have the building moved to some other point.

Dr. Reed's buggy was standing in front of his stable on West Third street when the storm approached. The wind blew the vehicle several feet along the street, and there's no telling where it would have landed had not a falling shade tree struck it. The top of the buggy was wrecked by the tree.

A short distance west of Dr. Reed's residence a large elm tree on Mrs. Hannah M. Mullins' lot was uprooted and narrowly missed the building occupied by Mr. Louis Lehman and family. The chimney was knocked off by branches of the falling tree.

Dr. T. H. N. Smith's residence on East Third street was slightly damaged. The Doctor had secured a tornado policy on his house from Messrs. Duley & Baldwin, the insurance agents, just about an hour and a half before the storm struck it. "It's an ill wind that blows nobody any good," and if the stormy weather continues, the tornado insurance companies will soon be enjoying a boom.

At Aberdeen the Ohio Valley Mill was partly unroofed. Mr. H. L. P. Cooper, a prominent farmer who lives on the river hills about three miles below Aberdeen, sustained the heaviest loss so far reported. A large tobacco barn, just finished, was completely wrecked. His loss amounts to several hundred dollars.

Considerable damage was done to shade and fruit trees in this city and in the surrounding country.

Since the above was written reports have been received from Dover, Minerva, Washington and other points, showing that the storm was very destructive in those sections. At Washington, a large tobacco barn containing some 12,000 lbs. of tobacco, on the Wood Brothers' place, was blown down. They had all their farm machinery and buggies in it and this was badly broken up. There was also a large lot of baled hay stored in it. In all it was a pretty heavy loss for them.

At Minerva a large barn on Mr. Alfred Forman's place was wrecked. It was filled with tobacco belonging to Mr. Mont. Weaver. The U. S. Geodetic Survey's Station near by was blown down. It was thought to be wind-proof.

Frank Boyd had a barn partly unroofed. Other buildings in the vicinity suffered considerable damage.

At Dover John Osborne's warehouse was unroofed, and barns belonging to John Wilson and Thomas A. Respass more or less damaged.

The Mutual Life.

Attention is called to the advertisement of the Mutual Life Insurance Company of New York. There is not a company doing business to-day that ranks as high as the Mutual. It has paid out millions to policy holders, and has assets of \$150,000,000. Its local agents, Messrs. Hutchins and Galbraith, and its special agent, Mr. L. G. Strobe, will be glad to give you any further information.

PICTURES AT HAYSWOOD.

Something of the Art Exhibition Last Evening.

The art display at Hayswood Seminary last evening was pronounced by several to be one of the best ever exhibited at that institution. The display was not as large perhaps as on previous occasions.

Miss Liebrecht, who has had charge of this department the past session, has impressed on her pupils the importance of a thorough knowledge of the first principles of the art. She discourages the work of mere copying and coloring until the pupils acquire a ready use of the pen and pencil in drawing. The result of her excellent instruction was seen in the work of her pupils exhibited last night.

The display was in the chapel, which was thronged during the evening by the citizens of Maysville.

Miss Julia Cox had two portrait studies of little girls, in crayon, and a study from still-life in oil, representing a lamp, work-basket, scissors and thermometer with a neatly draped curtain in the background. The arrangement and drawing was good and the coloring pleasing.

Miss Bessie Chapin had a basket of fruit beside which was a little plate with half-peeled apples and knife.

Miss Grace Bierbower displayed, among other pieces, a very pretty painting, in water colors, representing a pair of baby-shoes.

Miss Anna Shackelford had a very pretty study from still-life, representing some bananas on a light blue tray.

Miss Nellie Chapin; some pretty little studies in still life, in black and white—crayon.

A beautiful painting of roses, in water colors, by Miss Lena Hamilton, was greatly admired.

Little Lizzie N. Cox exhibited a well drawn basket with pincions, and Miss Lida Owens, a rabbit, in crayon, drawn from the flat.

All the pupils had many other drawings mostly from the object, the cast and nature; also copies from the flat and a number of sketches representing views near Maysville.

The commencement exercises will be held this evening, beginning at 8 o'clock, at the First Presbyterian Church. A class of four will graduate. The public invited.

THIS being the season for step ladders, all lengths from three to ten feet long are in stock. Also wire screen doors and windows, self-adjusting. The "Matchless" hold-back spring hinge, the very best ever made. All of the above sold by Frank Owens Hardware Company.

A BEAUTIFUL lawn or front yard is admired by all. The lawn mower is a fixed fact. Buy a Champion. It has less machinery to get out of order than any other. It is the best cutter made. Frank Owens Hardware Company sells this machine. Their third order made this season for them.

MR. JAMES MALEY died last night at 11 o'clock at his home on Grant street, after a lingering illness from dropsy. He was seventy years of age. His wife survives him, and he leaves four children, Mr. P. F. Maley, the grocer, being one of them. The funeral will take place to-morrow afternoon at 2 o'clock, at St. Patrick's Church.

MR. AND MRS. THOMAS SADLER and son, of Dallas, Texas, are here on a visit to his parents, Mr. and Mrs. H. C. Sadler. Their son has been ill for several months from an attack of pneumonia, and complications resulting therefrom, and one object of their visit here is to place the little fellow under Dr. Strobe's care. There was some improvement in its condition this morning.

IRL R. HICKS, the St. Louis weather prophet, was so accurate in his prediction for May last, that we copy his program for June: "The 1st and 2nd of June will be reactionary storm days. From the 6th to 9th will be a very active storm period, with Mercury on the 12th and Venus on the 17th, combined with solstice period, to prolong and excite the disturbances. The 13th and 14th being reactionary days, and Moon's 1st quarter on 14th, look for unsettled weather into the next period, 17th, 18th, 19th and 20th. During and about these days, very hard storms are almost certain, and at their close, more rain will have fallen than can be hoped for during the rest of the summer. Great electrical displays will be natural, with heavy hail in divers places. These disturbances will all feel the presence of Venus, and will be renewed, with decreasing energy, about the 25th and 26th and at the close of the month—the 30th being the center of next period. Sun's eclipse on the 6th."

What's the Matter With Maysville?

Says the Ripley Bee: "About sixty hands are now employed at the shoe factory, and the pay-roll amounts to over \$350 weekly. The factory is now turning out over two hundred pairs of shoes daily, and will gradually increase the output as the business improves. The prospects for success and growth are favorable."

BROWNING & CO.,

EAST SECOND STREET.

THE MABBITT TRIAL.

Non-Appearance of Witnesses Delays the Proceedings.

LEBANON, Ind., June 4.—Owing to the fact of the non-arrival of some of the most important witnesses for the state at the Mabbitt trial but few persons were examined at the afternoon session. Attachments were issued for those who had failed to put in an appearance. Joseph S. Jenkins, marshal of West Indianapolis, was the first witness called. His evidence consisted of the description of the finding of the body in Eagle creek, at a point south of the Vincennes road.

The body of the child was wrapped in a blue blouse, and was first discovered by Ora Hunt, who was hauling sand from a bank near by. The child was also found to have a strap drawn tightly around its neck, to which was attached a heavy iron weight, such as is used in securing horses.

Dr. F. E. Manker, coroner of Marion county, corroborated the testimony of Jenkins as to the condition of the body when discovered. He took the remains to his office, where a post-mortem was had by Dr. Cominger and himself. It was the belief of witness that death was not caused from drowning, as upon examination the lungs were found perfectly friable, and had not been filled with water. The neck was found to be dislocated by the pressure of the strap. His impression was that death resulted from choking, or strangulation, as a result of the tight strap. A weight such as described by the first witness was shown each of the witnesses and identified by them as the iron weight found attached to the child's body.

Henry Thrush, the policeman who arrested Mont Mabbitt, was next examined, and identified the weight shown him as one which had for several months lain about Ward Brothers' livery stable.

Frank Giblet, policeman, testified to having seen Mabbitt about Ward's livery stable, and also identified the iron weight as having been lying at the above stable.

After the examination of Pandora Barnum, who simply testified as to the Mabbitt brothers having roomed at her house, the court adjourned.

At this morning's session a number of the state's witnesses who were not present yesterday made their appearance. After calling the roll Ora Hunt responded as a witness. His examination related to the finding of the child's body, which was a mere repetition of the evidence of the marshal and coroner.

John B. Ward testified as to the Mabbitt brothers having been in his employ. He said that on the 19th of November last Mont Mabbitt took a buggy and left his stable at about 8 o'clock at night, but did not say where he was going. On the morning of the 27th of November after the accounts of the finding of the body of the babe were published, Mont came up to him and quietly asked him to say nothing of his having taken a buggy from the stable at any time. By reason of this conversation the suspicions of Ward were aroused, and later on he said to Mont that he (meaning Mont) seemed to be in for it, and asked him what he was going to do. Mont said that the girl was a woman whom he and his brother Oris had befriended, but that he did not know what had become of her.

He also said he knew nothing about the killing of the child and did not intend to run away, as that would prove him guilty. The witness identified the weight found as belonging to his stable.

Mrs. Elizabeth Dickson, proprietor of Little's hotel, testified to the fact of Minnie Mabbitt having boarded at her house, and that on the night of Nov. 19 she was called for and went away in a buggy with Mont and Oris Mabbitt, who had previously called to see her.

Mrs. Alleman, of Indianapolis, who runs a foundlings' home, testified that the Mabbitt brothers had called to see her about boarding the child of Minnie Mabbitt; that she called at Little's hotel to see the child, but owing to its delicate condition she refused to receive it.

SNAKE IN HIS STOMACH.

Boy Swallows the Reptile While Drinking from a Spring.

SIDNEY, O., June 4.—For nearly two months an 18-year-old son of D. N. Strayer, of Salem township, was decidedly unwell. His stomach was in a continual state of rebellion, no matter whether he ate heartily or left his food untouched. Remedies without number were tried in vain, and the family were in great trouble over the young man's affliction.

In the night he was suffering very much. He could not eat his supper, was exceedingly restless and had a high fever until daylight. He is now improving and well he may be, for the cause is removed. When he began vomiting Dr. S. G. Good, who was ready to drive to Sidney, was called.

Before he reached the house the young man vomited what looks like a "horse hair snake." It is, however, a different semi-reptile. Its length is ten inches. It is brown in color, as large as a wrapping cord used by druggists and is gorgon-eyed—that is, it has a single eye in the center of its head. Dr. Good placed it in a bottle of clear water and had it in Sidney in the afternoon.

To-morrow he will take it to Put-in-Bay, where he will attend a meeting of the Ohio State Electric Medical association, and make a statement of the case. The snake is of the genus Nematodes, of which there are four varieties, and this one is known as filaria. The young man is supposed to have swallowed it while drinking from a spring eight or ten weeks ago.

SEYMOUR, Ind., June 4.—Conductor Fish, of the Evansville and Richmond railroad, before retiring to bed in his room at the Lynn house, Monday night, blew out the gas. He was discovered later almost dead by reason of suffocation.

Sentence Reduced.

WASHINGTON, June 4.—The president has reduced the six years' sentence of Robert Sigel, son of Gen. Sigel, to two years and nine months, and directed that pardon issue to young Sigel then.

Association Hall Meeting.

CINCINNATI, June 4.—The Association base ball magnates are in session here. They will straighten out some financial matters and look for new grounds.

BUILDING TOPPLES OVER,

Killing Three Men Instantly and Seriously Injuring Two Others.

CHICAGO, June 4.—With a loud crash the frame building at No. 161 West Jackson street toppled over yesterday afternoon, burying in the ruins five young men who were carousing under the first floor of the rickety structure. Three of them were instantly killed, and the other two badly injured. The dead men were: William Schwartz, George Schwartz and John Cahill. The injured are: George Schine and Gus Schwartz. An alarm of fire was turned in and the firemen and police officers, as soon as they arrived, began the work of rescuing the unfortunate men.

When the timber was removed John Cahill was found lying on the ground, his right arm broken and cut off and his entire body crushed out of shape. George Schwartz was found on the side opposite to Cahill, his head smashed in and his right arm crushed off. William Schwartz was found in the center of the floor with his chest smashed in by a heavy timber. Gus Schwartz had his left arm broken and received a cut in the back of the head.

KNIGHTS OF RECIPROCITY

And Other Political Societies Holding Sway in Topeka.

TOPEKA, Kan., June 4.—The political societies have taken possession of the city. The grand lodge of the Knights of Reciprocity is holding its first annual convention in Lincoln hall. The executive council of the Farmers' Alliance is in session at Alliance headquarters, and Citizens' Alliance is at work issuing circulars and pamphlets. The meeting of the Knights of Reciprocity is the most important. Delegates are present from every lodge in the state. The present meeting is being watched with interest by the old party people. The meeting is being held with closed doors.

Bank Closed.

DETROIT, June 3.—A special to The News from Marshall, Mich., says: The following notice was posted on the door of the City National bank yesterday: "This bank is closed on account of the defalcation of E. J. Kirby, the assistant cashier. Signed, J. R. Bentley, cashier." The announcement caused great excitement. The directors of the bank verified the report. The bank examiner was here all last week. The shortage is between \$25,000 and \$50,000, it is said. Kirby has left the city, and his family claim they do not know his whereabouts. He confessed to his wife last Friday that he had sunk all of his own money three months ago and since then he had sunk \$41,000 of the bank's reserve fund in wheat speculations in Chicago. The bank claims to be amply secured and will resume business in a day or two.

New Incorporations.

COLUMBUS, O., June 4.—The following articles of incorporation were filed in the office of the secretary of state. The Brick Clay company, Columbus, capital stock \$50,000; the Allen Hardy Mining company, Mansfield, capital stock \$400,000; the Fostoria Laundry company, Fostoria, capital stock \$10,000; the Pottery Building and Savings company, East Liverpool, increase of capital stock from \$1,000,000 to \$5,000,000; the Yarrow Manufacturing company, Cincinnati, capital stock \$50,000.

Blair Will Hang.

COLUMBUS, O., June 4.—The motion for leave to file a petition in error to the circuit court of Putnam county in the case of Edward Blair, the murderer of Station Agent Henry, was argued in the supreme court Tuesday morning, and late in the afternoon the court announced its decision, overruling the motion, and Blair will be hanged next Friday morning between midnight and 1 a. m.

In the Same Boat.

LAWRENCEBURG, Ind., June 4.—Some time back a disreputable girl named Rebecca Jane Ray, was stolen out of the Dearborn county poor house by Robert Gray, and the twain went to Aurora, stole a skiff and sailed down the Ohio as far as Madison, where the whole outfit was captured and brought back. On plea of guilty to the charge of petit larceny before Judge Bainbridge, on Tuesday, he sentenced Robert to the state penitentiary for two years and Rebecca to the female reformatory for eighteen months.

Baltimore and Ohio Purchase.

SPRINGFIELD, O., June 4.—A deal is on foot for the purchase of the Ohio Southern running from here to Wellston. A two days' inspection of the road was begun by the Baltimore and Ohio Southwestern officials headed by Vice President Peabody.

Railroad Collision.

EMPORIA, Kan., June 4.—A north-bound freight and a southbound passenger train on the Missouri, Kansas and Texas railroad collided near Hartford, this county, about 1 o'clock yesterday afternoon. Both engineers, Howlett and Wicks, and the two firemen were badly scalded, but it is not thought fatally. The road was blocked until 7 o'clock.

Victory for the Democrats.

NEW HAVEN, Conn., June 4.—The supreme court has decided the case of Fields vs. Osborne et al., better known as the contested Branford election case, and as the "for" ballot case. The decision practically decides the governorship, and is favorable to the Democrats.

Days Short.

MILWAUKEE, June 4.—Bishop Flasche, of the Catholic diocese, of La Crosse, Wis., returned from the south yesterday suffering from cancer of the stomach. His condition is very low and his recovery very doubtful.

All Satisfactory.

MONTEVIDEO, June 4.—The budget statement sent out by the Uruguayan government is considered satisfactory. A surplus is looked for after the paying of public debt obligations and railroad guarantees.

A Steam Launch Explodes.

ITHACA, N. Y., June 4.—The steam launch Ysma, owned by Jacob Cram, of New York, blew up on the lake, fatally scalding the fireman and seriously injuring several others. The launch had just been built at a cost of \$11,000.

EXECUTORS' SALE

The undersigned will sell on Friday, June 5, '91, on the premises, one mile south of Minerva, in Mason county, all the real estate of the late James M. Hieatt to the highest eligible bidder. This property consists of one tract of land containing one hundred and thirty-seven acres. The land is well watered and in the highest state of cultivation, three-fourths of it now is in grass. It is noted as first-class tobacco land, and nearly all of it is now in condition to produce as fine and as much tobacco per acre as any land in the county. There are six or eight acres of woodland, the fencing is first-class, being nearly all four wire picket or hedge. The other improvements consist of one two-story frame dwelling, containing three rooms and hall below and two rooms and hall above and two splendid cellars, summer kitchen, smoke house, hen house, carriage house, ice house, large and commodious stables and two No. 1 frame 40x60 tobacco barns. Fine orchard, good cistern and well, and abundance of good tobacco sticks.

The purchaser will be required to pay five hundred dollars down as an earnest of intention to comply with contract. Terms of sale further than this will be easy and made known on day of sale. Full possession will be given the first day of March, 1892. The purchaser will have privilege of seeding this fall. The undersigned will take pleasure in giving any further information, either written or verbal, and are ready at all times to show parties over the premises when called upon. Address all inquiries to Byar & Weaver, Minerva, Mason county, Ky. Sale at 2 p. m.

JOSEPH M. BYAR, Executors.
O. N. WEAVER.

RUGGLES'

CAMP GROUNDS!

Friday June 29, 1891, at 10 a. m. at the grounds, the Hotel, Confectionery, Stable, Baggage, Conveyance and Barber Shop privileges will be let to best bidder, the board reserving the right to reject any or all bids. A good meeting anticipated. The grounds will be greatly improved. The time for holding next meeting is July 29 to August 10 inclusive. Any one desiring to rent cottages will write or apply to L. M. Lane, Maysville, Ky. Rev. A. Boring, Presiding Elder, will have the meeting in charge. Among the preachers who will be present are Dr. Robinson, of Union Church, Covington, Rev. Dr. Hartzell, of the Southern Educational Society, and all other preachers of the district are expected to be present.
